GENERAL SERVICES ADMINISTRATION

Security Mission and Responsibilities of the General Services Administration (GSA) and the Federal Protective Service (FPS)

AGENCY: General Services Administration (GSA).

ACTION: Notice.

SUMMARY: The purpose of this notice is to inform you of the steps GSA has already taken in response to the Oklahoma City bombing to provide a safe and secure Federal workplace and provide an update of efforts to upgrade security at GSA Federal facilities to meet the minimum standards outlined in the DOJ report entitled *Vulnerability Assessment of Federal Facilities*.

SUPPLEMENTARY INFORMATION: Four months have elapsed since the April 19 bombing of the Alfred P. Murrah Federal Building in Oklahoma City, and GSA continues the initiatives it undertook to enhance the security at buildings under its control.

These actions include a generally heightened level of security awareness; inspection of packages, briefcases and vehicles; and, generally tighter control of visitors and others within our buildings.

At a number of key locations, we have taken steps to limit public access and escort visitors, and are continuing to

pay particular attention to parking lots and garages as well as street level parking adjacent to the buildings. In a number of cases, restrictions have been placed on parking next to buildings.

We are committed to continuing these interim heightened security measures through September 30, and are taking steps to maintain these initiatives in FY 1996 until GSA begins implementation of updated security provisions identified in the DOJ study.

I would like to specifically recognize the efforts of the FPS in implementing and maintaining the heightened interim security measures during the past four months. I would also like to commend the entire agency for pulling together to accomplish the enormous task involved in dealing with the devastation of the bombing in Oklahoma City as well as the ensuing operational requirements. Most assuredly this task has been a difficult one, but the tremendous accomplishments of those involved is a fitting tribute to the dedication and professionalism of GSA employees nationwide.

GSA is well on its way to completing the task assigned by the President, and identifying the security needs of its facilities nationwide. To date, we have established Building Security Committees (BSC's) at the higher risk Level IV buildings. The BSC's are meeting and will identify the required security upgrades as outlined in the DOJ report. We continue to maintain the ambitious schedule established by the President. FPS will be monitoring the Level IV BSC activities, and developing guidelines for reporting and evaluating their security recommendations.

The DOJ report specifically stated that the FPS "has the experience and the historical charter to provide security services" in GSA federal buildings by using a wide range of technical and human resources (including both Federal Protective Police Officers (FPPO's) and contract security guards). Finally, an Executive Order establishing an Interagency Security Committee (ISC) headed by the Assistant Commissioner of the FPS has been signed, and the President is issuing a Memorandum for Executive Departments and Agencies recognizing GSA's leadership role in federal building and facility security.

The next few months will be both demanding and challenging as GSA and FPS endeavor to meet the Presidents ambitious schedule for implementing the DOJ study recommendations. During this time, I would ask everyone to remain committed to GSA's mission and responsibility to provide a safe and secure working environment for our clients, customers and visitors.

Dated: August 15, 1995.

Roger W. Johnson,

Administrator.
